Which doc do I open?

Start here. Find your situation in the left column and open only the doc on the right. Docs marked **owner** are written for you (no coding). The rest are for whoever changes the code.

Right now: getting 1.0.0 to the public

I want to...	Open
Put 1.1.0 (Stone Storm) on closed testing over 1.0.0, then production	**`docs/RELEASE_1_1_0.md`** (owner). Start here now.
Finish Google Play Games sign-in (SHA-1, testers, publish)	**`docs/PLAY_GAMES_SETUP.md`** (owner)
Release the game to everyone, step by step	**`docs/FINAL_RELEASE_STEPS.md`** (owner). Follow Steps 1 to 9 in order. This is the only doc you need until launch.
Know what to paste into the Play store page	`store_listing/listing.md` (owner)
Know which image, icon or video goes where in Play Console	`store_listing/README.md` (owner)
Answer the Data safety, Ads or Content rating forms	`docs/FINAL_RELEASE_STEPS.md` Step 5 (owner). Background: `docs/FIREBASE_SETUP.md` "Data safety"
Check the game follows Play, AdMob and Billing rules	`docs/POLICY_AUDIT.md`

After launch: running the game

I want to...	Open
Make and publish an update	`docs/RELEASE_GUIDE.md` part 5 (owner)
Let the tool upload to Play by itself (one-time)	`docs/RELEASE_GUIDE.md` part 3 (owner)
Understand internal, closed, open and production tracks	`docs/RELEASE_GUIDE.md` part 6 (owner)
Roll out to more players, or stop a bad update	`docs/RELEASE_GUIDE.md` part 8, and part 16 for the commands (owner)
Know what I can change without a new version (prices, products, listing)	`docs/RELEASE_GUIDE.md` part 9 (owner)
Check reviews, crashes and numbers after release	`docs/RELEASE_GUIDE.md` part 11 (owner)
Understand earnings, refunds and taxes	`docs/RELEASE_GUIDE.md` part 12 (owner)
Back up my keys and secret files	`docs/RELEASE_GUIDE.md` part 2 (owner). Do this before anything else.
Test on my phone or give the game to friends	`docs/RELEASE_GUIDE.md` part 13 (owner)

I want to...	Open
Move to a new Mac	`docs/RELEASE_GUIDE.md` part 14 (owner)
Fix a problem (upload refused, ads not showing, purchase fails)	`docs/FINAL_RELEASE_STEPS.md` "If something goes wrong", then `docs/RELEASE_GUIDE.md` part 15 (owner)
See which versions were released and when	`docs/RELEASE_HISTORY.md` (written by `tools/release.py`)
Ask an AI helper to change something	`docs/RELEASE_GUIDE.md` part 17 (owner); the helper itself reads `AGENTS.md`

Ads, purchases, analytics, notifications

I want to...	Open
Add or change an in-app product, or test purchases	`docs/OWNER_SETUP_ADMOB_BILLING.md` parts 6 and 8 (owner)
Set regional prices	`docs/BILLING_SETUP.md`
Set up an AdMob test device or check ad units	`docs/OWNER_SETUP_ADMOB_BILLING.md` parts 3 and 7 (owner)
Understand where ads appear and why prices are what they are	`docs/MONETIZATION.md`
See what Firebase records (events, crashes)	`docs/FIREBASE_SETUP.md`
Change reminder notifications or their text	`docs/NOTIFICATIONS.md`

The game itself (for code changes)

I want to...	Open
Rules, commands and folders for changing code	`AGENTS.md` (read first)
How the code fits together	`docs/ARCHITECTURE.md`
Engine, plugins and versions	`docs/TECH_STACK.md`
Game rules: heroes, materials, scoring	`docs/GAME_DESIGN.md`
Level list, realms and the level file format	`docs/LEVELS.md`
Signature features (Hellfire, bosses, contraptions...)	`docs/SIGNATURE_FEATURES.md`
Screens, HUD and icons	`docs/UI_DESIGN.md`
Art style and colours	`docs/ART_DIRECTION.md`; AI image prompts in `docs/AI_ART_PROMPTS.md`
Sound and music	`docs/AUDIO.md`
Where third-party assets came from and their licences	`docs/CREDITS.md`
The story and who the game is for	`docs/ABOUT.md`
What was planned and what is done	`docs/ROADMAP.md`

Older docs you can mostly ignore

Doc	Why
`docs/PLAY_STORE.md`	Short early checklist. Replaced by `FINAL_RELEASE_STEPS.md` and `RELEASE_GUIDE.md` part 7.
`docs/OWNER_SETUP_ADMOB_BILLING.md` parts 1 to 5 and 9	Already done (key, payments profile, AdMob, IDs, internal testing). Closed testing is now in `FINAL_RELEASE_STEPS.md` Step 3 and 4.
`docs/reference/PROTOTYPE_REFERENCE.md`	Notes from the old HTML version. History only.
